

Subject: Fluid Leak Management Users Group (FLMUG) Summer Meeting (August 8 – August 10, 2011)
Valve Team Users Group (VTUG) Pilot Summer Meeting (August 11, 2011)

Theme: FLMUG - Gasket Technology and Training
VTUG - Valve Team Organization and Management

Topic: Summer Meeting Agenda (2011)

Location: Double Tree Hotel, Oak Brook, IL USA

Date: August 8 – August 11, 2011

Greetings:

The FLMUG Steering Committee would like to take this opportunity to advise you of two important industry meetings on “Fluid Sealing Technology” and “Valve Team Management” organized by FLMUG (www.fluidleak.com). You can attend one or both of the meetings for a single registration fee of \$350.00. Please accept this invitation to attend and share this information with others at your site that may also benefit from the information in these topical areas.

This year the FLMUG will sponsor and pilot the new Valve Team Users Group (VTUG). The FLMUG and other industry users groups regularly have questions about Valve Team staffing, work scope, training, scheduling, online vs. outage work, contract personnel, etc. This new Valve Team Users Group will give Valve Team Leads, Supervisors, and Technicians a venue to benchmark overall valve maintenance strategy.

The meeting will provide a number of presentations by utilities and vendors pertaining to the success in overcoming various fluid sealing issues as well as practical steps to initiate or improve your site fluid leak management program.

The meeting will also provide a number of presentations by utilities pertaining to the success in Valve Team maintenance strategy.

Throughout the day on Monday, Tuesday, and Wednesday, vendor exhibits will be open during the meeting breaks to update the attendees on products and services available to our industry.

Please review the attached agenda and join us in attending this important industry meeting. The FLMUG steering committee encourages you to forward this to other interested parties. Please visit www.fluidleak.com for registration information, which will be available soon. Feel free to contact us with any questions.

Greg Schulte
FLMUG Chairman
Exelon Corp.
